

Mars Exploration Program Analysis Group (MEPAG)

chartered by NASA HQ to assist in planning the scientific exploration of Mars

Face to Face MEPAG meeting in Feb/March/April 2017

- We are avoiding these dates:
 - 2020 Landing Site Workshop (Feb 8-10), 2020 CDR (Feb 14-16)
 - IEEE (Mar 4-11)
 - LPSC (Mar 20-24), CAPS (Mar 28-30), EGU/AbSciCon (Apr 23-28)

- Promising options
 - Feb 22-23 (week after Mars 2020 CDR); may conflict with Planetary Science Subcommittee (PSS)
 - Mar 1-2 (week running up to start of IEEE)
 - Apr 4-7 (2-week pad against LPSC and EGU/AbSciCon)

- Possible agenda items are being discussed
 - Please forward suggestions to MEPAGmeetingqs@jpl.nasa.gov

Mars Exploration Program Analysis Group (MEPAG)

chartered by NASA HQ to assist in planning the scientific exploration of Mars

Thanks to Serina Diniega, Lindsay Hays, and
James Ashley for ongoing critical support of
MEPAG activities

Thanks everyone for attending
