Mars Science News

12th International Academy of Astronautics (IAA) Low-Cost Planetary Missions Conference, LCPM-12

August 15-17, 2017 @ California Institute of Technology in Pasadena, California

Abstract deadline: May 26, 2017

The focus of LCPM-12 is on small and/or low-cost planetary missions, on the scale of the NASA Discovery/ESA Cosmic Vision Small (S) Class and smaller, including Smallsats and CubeSats. The conference is intended to be an opportunity for scientists, technologists, engineers and project and agency managers to exchange ideas and information to enhance the viability and science return of low-cost robotic missions. The venue will be Hameetman Auditorium of the Cahill Center for Astronomy and Astrophysics on the campus of the California Institute of Technology (Caltech). See <http://www.lcpm12.org> for details.

Public Participation Resources for Mars Exploration via Citizen Science Platforms

Following presentation and lively discussion at the February [MEPAG #33 meeting](#), Meg Schwamb, (Gemini Observatory) and Amy Kaminski, (NASA Office of the Chief Scientist) were asked to assemble a summary of available Citizen Science projects and platforms as a resource to the Mars science community. Citizen science, in which the public contributes to the scientific process, can advance science investigations through activities that include formulating research questions, conducting scientific experiments, collecting and analyzing data, interpreting results, making new discoveries, developing technologies and applications, and solving complex problems. For Mars-specific science, programs currently include *Mars Mapper*; *Planet Four*; *Planet Four: Terrains*; and *Planet Four: Ridges*. Community members considering public assistance with high data-volume projects can visit: <https://mepag.jpl.nasa.gov/meeting/2017-03/MarsCitizenScience.pdf>

The 8th Planetary Crater Consortium

August 9-11, 2017 @ the US Geological Survey in Flagstaff, Arizona.

The Planetary Crater Consortium is open to all planetary scientists interested in any aspect of impact cratering on solar system bodies, including observational, theoretical, experimental, and numerical studies. Contributions on terrestrial impact crater field studies are encouraged, as well as presentations about cratering on other solar system bodies. The meeting is a combination of contributed talks, posters, and open discussion. An optional field trip around the rim of Meteor Crater will be arranged for Saturday, August 12, if there is sufficient interest. Abstract deadline is Tuesday, August 1, 2017. For more information, see www.planetarycraterconsortium.nau.edu/ or contact Nadine Barlow (Nadine.Barlow@nau.edu).

First community meeting of Mapping and Planetary Spatial Infrastructure Team (MAPSIT)

June 15, 2017, Flagstaff, Arizona

In conjunction with the 3rd Planetary Data Workshop in Flagstaff, Arizona (June 12-15, 2017; <http://www.hou.usra.edu/meetings/planetdata2017/>), participants are invited to attend the 1st MAPSIT community meeting. More information on MAPSIT's vision, archives, and resources can be found at the MAPSIT website: <http://www.lpi.usra.edu/mapsit/>.

Request for Input: Planetary Geoscience Mapping

Please use the following link to provide much-needed anonymous input regarding planetary geoscience mapping; bit.ly/map_input. This request takes <5 minutes and covers all types of mapping efforts focused on non-terrestrial bodies. Poll results will be discussed at the Planetary Geologic Mapper's annual meeting, and will help inform how planetary geoscience mapping efforts can be improved. Results and paths forward will be posted on the MAPSIT webpage (<http://www.lpi.usra.edu/mapsit/>) by end of summer. Thank you; your input is critical!

9th International Radar/SAR Summer School

July 14-21, 2017 @ Haus Umboldtsein, Germany

Fraunhofer FHR, one of Europe's leading radar research institutes, which has pioneered radar and SAR research and development over the decades, is pleased to announce the 9th International Summer School on Radar/SAR, which will take place from 14-21 July 2017. We cordially invite students, PhD candidates, post-docs and anyone else eager to broaden and deepen their understanding of radar and SAR techniques to participate in our truly international summer school. Internationally renowned experts from across Europe, USA and Canada make up the summer school lecture team. This is a unique opportunity to gain an in-depth appreciation of modern radar and SAR systems whilst absorbing the multifarious atmosphere of the famous Upper Middle Rhine region. Participation in the programme of social activities with the international group of attendees will inspire and enrich your learning experience. See <http://www.radarsummerschool.fraunhofer.de> for further information and to download the Application form. Specific queries regarding the summer school should be addressed to: matthias.weiss@fhr.fraunhofer.de.

Near-term Due Dates (next three months)

Due	Project
April 20	Accretion Building New Worlds , Indication of Interest Deadline
May 8	International Conference on Mars Aeronomy 2017 , Late Abstract Deadline (poster only)
May 29	3rd Planetary Data Workshop , Registration Deadline
May 2	Fifth International Planetary Dunes Workshop , Registration Deadline
May 3	European Planetary Science Congress , Abstract Deadline
May 9	Meteoritical Society meeting , Abstract Deadline
May 13	Dust in the Atmosphere of Mars and it's Impact on Human Exploration , Early Registration Deadline
May 15	1st IUGS Symposium on Planetary Science , Abstract Deadline
May 26	Low-Cost Planetary Missions Conference , Abstract Deadline
June 1	Accretion: Building New Worlds , Abstract Deadline

Upcoming Conferences and Workshops

[A note about “conferences” and this calendar of events](#)

- Missing NCTS#s (and forecasting deadline, if anomalous) can be sent to Barbara Saltzberg (Barbara.a.saltzberg@jpl.nasa.gov).
- If no deadline is noted: it is usually 90 days in advance — sometimes further in advance if the conference is “Heavily Attended.”
- Please do not assume our noting of NCTS# is complete. If you are unsure whether an event is a conference or not, or when the forecasting deadline may be, please consult with your NASA Center conference forecasting/travel unit.

First Quarter, 2017

	April 19-21, 2017 Roscoff, France	Planetary Mapping and Virtual Observatory http://www.europlanet-eu.org/workshop-planetary-mapping-and-virtual-observatory/ NCTS#28815-17
	April 23-28, 2017 Vienna, AUSTRIA	European Geosciences Union General Assembly http://www.egu2017.eu/ NCTS# 27025-17 PS8.2: Hyperspectral Data Measurements and Analysis to Support Planetary Exploration, GMI.4/PS9.5 Planetary Geomorphology
	April 24-28, 2017 Mesa, AZ, USA	Astrobiology Science Conference http://www.hou.usra.edu/meetings/abscon2017/ , NCTS# 27507-17

Second Quarter, 2017

	May 4-5, 2017 Muenster, GERMANY	New Views of the Moon 2—Europe http://www.hou.usra.edu/meetings/newviews2017/
	May 9-11, 2017 Washington, DC, USA	Humans to Mars Summit (H2M) http://h2m.exploremars.org/ , NCTS# 28099-17
	May 15-19, 2017 Boulder, CO, USA	International Conference on Mars Aeronomy (Update) http://lasp.colorado.edu/meetings/marsaeronomy2017/index.php , NCTS# 26278-17
	May 16-19, 2017 St. George, UT, USA	Fifth International Planetary Dunes Workshop http://www.hou.usra.edu/meetings/dunes2017/ , NCTS# 28521-17
